# Spectrum

London Streaming Service

What Is It?

· Spectrum London now offers live streaming in all 5 studios.

· All devices supported from Computers, Tablets and Mobile Phones to IPTV/OTT devices and Smart TVs.

· The video stream scales to ensure the best possible quality depending on your available bandwidth.

· Client project page can be adapted to provide viewers with further information, and custom logos if requested.

· All Streaming servers located in EU data centres.

Why Use It?

· Enable clients to watch sessions from anywhere in the world in real time, on a Computer, Tablet or Mobile Phone.

· With a flat rate of £450 ex vat per day, you can have as many clients viewing as you like, offering brilliant value.

· Spectrums live stream is secure and reliable, we will inform you at the venue once you're live and the rest is taken care of so you can focus on your project.

How Does It Work?

· Inform us on info@spectrumview.co.uk that you would like your booking to be live streamed.

· The day before your booking, you will receive a password protected link to your stream folder, which will contain details to access your stream, as well as contact information should your viewers need assistance during the stream. Share this with your clients.

· The day of your booking, the stream will go live 20 minutes before the start of your event and end approximately 10 minutes after it has finished.

Please notify us if you would prefer different timings.

· Immediately after each session, the stream folder will be updated to include an archive of your recordings.

· The streaming cost will be included in the final invoice after your booking.
