

# Measures we've taken to combat Covid-19

Our facilities have been deep cleansed using an antiviral fogging protection service to help fight against the spread of Covid-19. The Spectrum team have all received important training to help prevention of the virus spreading in the workplace so you can rest assured we are doing our utmost to ensure your safety whilst using our facilities.

Our facilities have been deep cleansed using antiviral fogging protection service

The Spectrum team have completed training in the prevention and precaution of spreading Covid-19
